

Cruise Elsinore

Royal North Sealand

meet the vikings - if you DARE...

Kronborg Castle was the setting for Shakespeare's Hamlet and is one of Denmark's top attractions and a UNESCO World Heritage Site.

Elsinore and Kronborg is the gateway to the Baltic states and the original sound duty was paid here - Today we do not charge suond due, but we have a great anchorage with calm waters just a few m. South of the port, with up to 20+ meters depth for anchoring of the largest ships

From Elsinore is just 35 min to the capital Copenhagen, but you have Hamlet's castle and two more of Northern Europe's most important Renaissance castles in and around Elsinore

The new ISPS approved "Royal Quay" have facilities for both cruise vessels alongside and tenders from anchored cruise vessels.

There is ample size for Busparking just 10 meters away from the quayside. Maximum size for Cruise vessels alongside is 150 meter with a draught up to 6,5 meter and no limits for Cruise vessels at anchor.

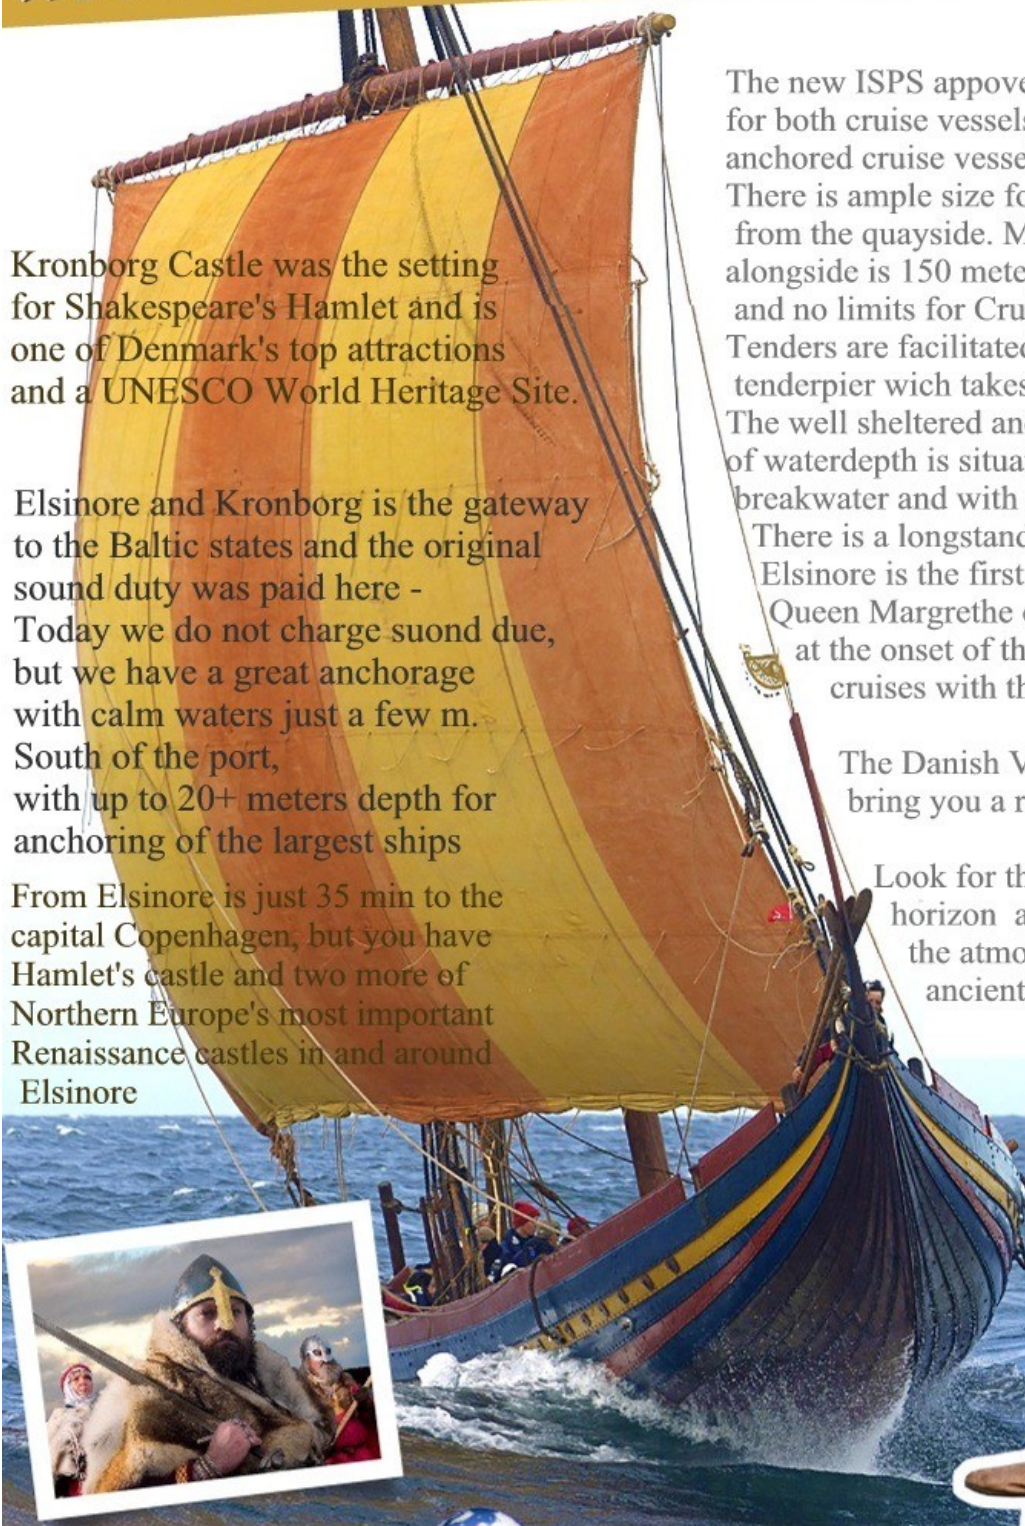

Tenders are facilitated at the new 20 meter floating tenderpier wich takes 2 tenders at the time.

The well sheltered anchorage with +20 meters of waterdepth is situated only 0,3 nm away from the breakwater and with easy acces to the port.

There is a longstanding tradition that Elsinore is the first city to be visited by Queen Margrethe of Denmark at the onset of the annual summer cruises with the royal yacht 'Dannebrog'.

The Danish Vikings will capture your heart and bring you a raid of unforgettable experiences.

Look for the Vikings in the horizon and feel the atmosphere of ancient power!
